

Dear FCC:

We have appreciated the KLove broadcasting in our area because they provide "clean" fresh and upbeat music, and best of all, Commercial Free. We have 2 small children, and we cannot imagine having them listening to any other radio station. They both enjoy KLove and so do we. In fact my son's name is Caleb, so he thinks Klove says his name all the time. Now my 2 1/2 year old daughter picked up on this and she repeats, "Mommy, they said Caleb!" It's truly inspiring.

The effect on our local community is huge, especially now when kids are searching for something positive, when there is so much "crudeness" with other stations. It is in the best interest of our community, because no matter what hour we turn on KLove, we know it to be a safe place to learn and grow.

We believe that the services provided by KLove are in the public interest due to the message that KLove sends: The 'escape' from everyday pressures and stresses while listening to encouraging programming!

Please keep KLove running, as we will do our best to continue to support them thru prayer and financial contributions.
Thanks so much, Ligia and Justin Barac
